Operational Resilience for Credit Unions

Course Overview

The Governance of Operational Resilience for Credit Unions course has been developed **in collaboration with PAT Business School**.

This course has been specifically designed to support Credit Unions in achieving compliance with the **Digital Operational Resilience Act (DORA)**. By addressing the critical requirements of the Act, the course ensures participants are equipped to meet regulatory standards while enhancing their operational effectiveness.

Created with insights from leading experts, the course offers practical strategies for enhancing digital resilience, managing risks, and ensuring compliance.

Participants will gain a deep understanding of how to strengthen governance structures, protect critical services, and build long-term stability in an increasingly digital financial landscape.

About PAT Business School

PAT Business School specialises in offering a range of university validated &/or professionally accredited programmes that address the evolving risk, compliance, regulatory & technological challenges/opportunities facing financial service providers. PAT Fintech specifically focuses upon delivering skills based programmes in the areas of Anti-Financial Crime, Operational Resilience (DORA), Crypto (Digital Assets), AI Governance and Sustainable Finance

Course Delivery

Delivered 100% online through LIA Elevate, this pre-recorded course offers flexible learning and practical strategies for business continuity, ICT risk management, and incident reporting.

Benefits to you

- Gain a comprehensive understanding of DORA's governance requirements.
- Strengthen your ability to safeguard critical operations, ensuring compliance and enhancing member trust
- Learn practical strategies to ensure compliance and improve operational resilience.
- Access templates, checklists, and real-world case studies tailored to Irish Credit Unions.

Award

A Certification of Completion is awarded on completion of this course by LIA.

Who should complete this course

This course is tailored for a diverse group of professionals within Credit Unions, all of whom play critical roles in ensuring operational resilience in line with the Digital Operational Resilience Act (DORA), including **Board Members, Senior Managers, Risk Professionals, Compliance Officers and ICT Governance Teams**.

There are six modules in this course:

Module 1: Governance Fundamentals and DORA Compliance:

Introduction to governance requirements under Articles 5 & 6.

Module 2: Business Continuity Planning (BCP):

Strategies to design, test, and govern DORA-compliant BCPs.

Module 3: Incident Reporting Governance:

Effective protocols for classification, escalation, and regulatory compliance.

Module 4: ICT Risk Management Frameworks:

Building and overseeing risk management structures.

Module 5: Monitoring and Reviewing Resilience:

Developing KPIs and conducting post-incident reviews.

Module 6: Implementation and Continuous Improvement:

Roadmap for sustained compliance and resilience.

Course Cost

€350 for LIA members

€400 for Non-LIA members
